

Karran Acrylic Series sinks are manufactured from an ultra dense, pure acrylic resin, reinforced on the underside with a durable FRP backing. This makes them tough and resilient to even the toughest daily tasks. Each Acrylic sink has a resin matrix rim that allows it to be seamlessly integrated into all laminate and solid surface countertop materials. Seamless integration is the most hygienic way to install a sink into a countertop in both residential and commercial applications.

Series:	Acrylic Series
Material:	High density acrylic, FRP reinforced
Installation Type:	Seamless undermount
Configuration / Style:	Vanity bowl
